## IN THE RED

I'm losing balance, I'm losing sleep  
This vertigo is overtaking me  
Dollar for dollar, baby, check by check  
If we wanna keep living, we've got to live in the, live in the Red  
It's living in the noise, living in the red

It's 3:30 in the morning and the shutters are banging  
I need some kind of distraction  
I'm counting numbers backwards again

But don't you dare call off the party  
Don't you break off any plans  
We're gonna take them to the show

Cause it's gonna get better, it's gonna get better baby  
Hang on to me, everything is gonna be alright  
Heard the politicians say they're gonna fix everything

But in the meantime, we'll just scrape on by  
You make the grilled cheese, I'll buy a box of wine  
Maybe tomorrow we can pay it off on time

I'm losing balance, I'm losing sleep  
This vertigo is overtaking me  
Dollar for dollar, baby, check by check  
If we wanna keep living, we've got to live in the, live in the Red  
It's living in the noise, living in the red

Living, live in the red, live in the noise  
Living in the red

## GRACE

No, I'll never understand what woke me up that night  
I just laid my baby down and turned off the light  
And as a silence filled the room, a comfort filled my soul  
I thought "This is my family, this is my home"  
But little did I know, it was out of my control

And only ninety minutes gone, that's all it took to change  
The only world we've ever known was swallowed up by flames  
In the bed where we made love, our little angel's baby dolls  
The walls we built together in embers on the ground  
Ashes they fall, left us with nothing at all

No, we've never been closer baby, we still got faith  
We're standing here together, and we still got Grace  
No, we've never been stronger baby, we still got faith  
No, it's never been clearer now, we still got Grace  
We still got Grace

We still got Grace

I've been over and over again, running circles through my mind  
Was there something that I could've changed, I can't live this life in rewind  
Cause all that really matters now, we got a chance to start again  
We can make it through this, our love is gonna get us through anything  
Ohh, ashes will fall, ohhh, were gonna rebuild these walls

No, we've never been closer baby, we still got faith  
We're standing here together, and we still got Grace  
No, we've never been stronger baby, we still got faith  
No, it's never been clearer now, we still got Grace  
We still got Grace

No, we've never been closer baby, we still got faith  
We're standing here together, and we still got Grace  
No, we've never been stronger baby, we still got faith  
No, it's never been clearer now, we still got Grace  
We still got Grace

We still got Grace  
We still got Grace  
We still got Grace  
We still got Grace

## **RISING SUN**

Deny it all you want, you're never gonna get free  
You can try to sell your peace, you're never gonna sell me  
And realize you can't control, that these skies they're moving on  
No, you're never gonna do bad things to me

Don't ever think that you can hold me down  
Cause I'm coming up like the rising sun  
Won't waste my matches on your gasoline  
Cause the lies you tell yourself you're starting to believe

The bottle falls and shatters all over the ground  
Just like the words they fall out, fall out of your mouth  
What did think that rock n' roll would just fade away  
I'm not playing your games to end up right where we began

I'll never get it back, I want that piece of me back  
I'll never get it back, get it back no  
I'll never get it back, what you took from me  
I'll never get it back, get it back

A million fireflies the sky lit up  
Before my eyes it all lit up in flames  
Don't ever think that you can hold me down  
Cause I'm coming up like the rising sun  
Won't waste my matches on your gasoline  
Cause the lies you tell yourself you're starting to believe

Don't ever think that you can hold me down  
Cause I'm coming up like the rising sun  
Won't waste my matches on your gasoline  
Cause the lies you tell yourself you're starting to believe

The bottle falls and shatters all over the ground  
Just like the words they fall out fall out of your mouth  
What did think that rock n roll would just fade away  
I'm not playing your games to end up right where we began

## STAY AWAKE

Wish you could stay awake  
Wish you could stay awake  
Wish you could stay awake to see

Come on were heading north, we're gonna go see the angels  
They're gonna hook you up, they're gonna make you feel better  
And when you're tangled up in wires, I'll be tangled up with mine  
I'll be staring out the window, willing to swallow my pride

I watch the sun break free from the clouds  
Wish you could stay awake to see  
But I know it's kicking in, I could never be so brave  
But I'm doing my best to figure it out  
Cause that's what I gotta do, ohh ohh ohh  
What I gotta do, ohh ohh ohh

And what about us, we're in a state of destruction  
She needs a place to heal, not in a house that's broken  
And what about love, she needs to know that it's real  
She's gotta have faith in something, she needs to know we'll be here

I watch the sun break free from the clouds  
Wish you could stay awake to see  
I find it hard to believe you can't put that bottle down  
When I'm doing my best to figure it out  
Cause that's what I gotta do, ohh ohh ohh  
What I gotta do, ohh ohh ohh

Wish you could stay awake  
Wish you could stay awake  
Wish you could stay awake to see

Wish you could stay awake  
Wish you could stay awake  
Wish you could stay awake to see  
Wish you could stay awake  
Wish you could stay awake  
Wish you could stay

## OUT OF YOUR HEAD

Just get it out of your head now  
Cause it's gonna get better yeah

Don't go beating up yourself  
Don't go hiding on a shelf  
Don't go shutting out every arm you ever crawled under

I know you'd crawl inside your skin  
You'd never choose the shape you're in  
But don't go thinkin' you're the only one  
Who's ever been broken

Don't you know what your love is worth  
Don't you know that you're beautiful  
Come on in...

Just get it out of your head now  
Cause it's gonna get better yeah  
Just get it out of your head now  
Cause it's gonna get better yeah

Don't go losing all control  
Don't go digging up a hole  
Don't go hanging on to someone  
That you know is drowning

Before you say there's nothing left  
Won't always know what happens next  
Don't go saying things you might regret  
You can't get it back no

Don't you know what your love is worth  
Don't you know that you're beautiful  
Don't you know what your love is worth  
Come on in....

Just get it out of your head now  
Cause it's gonna get better yeah  
Just get it out of your head now  
Cause it's gonna get better yeah

**DAISIES**

I was drivin' on the tri-state  
Occupied and trying to mind my own  
Constant pattern, no break from routine  
God knows that I'm habitual

When it hit me like a semi-truck  
Like a piano falling out of the sky  
Blindsided by a pack of thieves  
Jumped on my chest and they stole my breath, breath  
And they stole my breath

Wish my mind would stop playing tricks on me now  
Wish my mind would stop outrunnin' me  
Wish my mind would stop playing tricks on me now  
I'm always pushing up, pushin' up  
daisies, daisies

There I'm sprawled out on the sidewalk  
Falling in and coming back out of grey  
Heard the sirens in the distance  
Felt no closer than the earth from the moon

Wish my mind would stop playing tricks on me now  
Wish my mind would stop outrunnin' me  
Wish my mind would stop playing tricks on me now  
I'm always pushing up, pushin' up  
daisies, daisies

If we could just lock our eyes  
I lost my center again  
You bring me off that red line  
You're better than any medicine  
I need you  
I need you

Wish my mind would stop playing tricks on me now  
Wish my mind would stop outrunnin' me  
Wish my mind would stop playing tricks on me now  
I'm always pushing up, pushin' up  
daisies, daisies
